## BULLOCK EXPANSION GAP SPACERS

**Bullock Expansion Gap Spacers revolutionise  
Fire Damper installations!!!**

Expansion gap spacers come fitted to Bullock Fire Dampers to ensure the damper is centred within the penetration, they will not sag like other insulated products leading to gaps above the damper over time.

They do not completely encapsulate the damper making installation easy even in the ugliest hole!

Tested to AS1530.4, Patent number 726578
